DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 12-13, 22, 33-34, 43, 55, 64, 67, are drawn to “motion vector detection/generation” in non-compressed images, classified in class 348, subclasses 154-155, 699-700.
 - II. Claims 2, 10-11, 19-20, 23, 31-32, 40-41, 44, 52-53, 61-62, 65-66, 68-69, 78-80, directed towards object and scene measurement with the camera and object moved relative towards each other, classified in class 348, subclass 142.
 - II. Claims 3-4, 24-25, 45-46, are drawn towards “...camera motion processing and associated sensor processing...” and output to a chair (camera combined with diverse art device), classified in class 348, subclass 552.
 - III. Claims 5, 26, 47, 44-47, 70-74, 76-77, are drawn to “panoramic image generation”, classified in classes 348, subclasses 36 and 39.
 - IV. Claims 6, 9, 27, 30 48, 51, are drawn towards “...motion vector detection/generation with centroidal tracking...” in non-compressed images, classified in class 348, subclasses 169-172.
 - V. Claims 14-15, 21, 35-36, 42, 56-57, 63, 75, are drawn to “motion vector detection/generation” in compressed images (i.e. conversion coefficient generation), classified in class 375, and subclasses 240.16-240.17.

- VI. Claims 18, 39, 61, are drawn to "...motion vector detection/generation" using feature points (i.e. representative points) in compressed images, classified in class 375, subclass 240.08.
2. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
